

EDITOR'S NOTES:

It is my sincere desire that all those reading & studying this book may find enjoyment & meaning from it. A Family Tree Book can only be meaningful when the names there in are not only thought of as just names, but the people they represent. My thanks go to all those who have in any way helped with this book.

Anyone knowing any more information that would be of either interest or belongs in here that is not already in it, please feel free to let me know so it can be added. Or if you find mistakes, please let me know right away so it can be corrected. Not all spelling of names in this book are guaranteed to be correct, though where ever possible the correct use is shown if it's known.

To those who may desire a typed copy such as this can have one on request only, for a charge of \$1.65 U.S. or \$1.75 Foreign Countries, plus postage. Thus to cover some of the expenses involved. Supply is limited, so a short wait for a copy may take place.

Other Family Tree Books available upon request are as follows with prices, (Subject to change, as more pages & information are added & costs go up.)
