Dear Mr. Thessen,

I didn't get last week's letter mailed and now I have a problem. Can you show me how to track the ancestors of Peter Thessen who married Elizabeth Giesbrecht. Enclosed is a typed Pedigree chart which shows Peter's parents as Peter Thessen (1769 - ?) + Margarete Heide (1766 - ?).

In today's mail I have received a different version - see enclosed hand written copy.

How do I know which one is correct?

What do your records indicate?

Would a copy of my completed Thessen book be of interest to you? I hope to have it ready by the fall of this year.

However you can direct me will be greatly appreciated.

Sincerely in Christ,
Miss Elaine Wiebe

P.S. Enclosed are empty pages that I use - so you can fill in the correct data.
