Re : Access to Archives in the ex-Soviet Union

I am enclosing a copy of a paragraph from Palatine Patter, together with a response from Urbana Technologies, Inc., to my request for specifics as to what kind of services are being offered and at what cost.

Please pass this information on to other interested organizations and individuals at meetings, through newsletters, or by word of mouth.

I might also mention, for the benefit of those of you who have not yet heard of the project, that we are in the early stages of forming a multi-ethnic East European Family History Association under the leadership of Charles Hall. It looks as if this may take the form of a Federation of East European Family History Societies.

We welcome all input as to how such a collaborative effort should be organized and financed, what services it should offer, its relation to other genealogical societies, etc.
