4 There is some evidence to indicate that daughter Catharina Klassen married Franz Wien of Neudubeny, Pussia, who emigrated to Petershagen, Pussia, 1804 as an employee. He is listed as single at the time of the emigration. Four years later in 1808 he is listed as the owner of Wirtschaft No. 5 in Petershagen, with wife Catharine age 31, daughter Catharina age 2 and daughter Maria Gertrude.

Since Peter Klassen, Sr. has no daughter of the appropriate age and Catharina Franz Wien was residing in the same village there is some basis to suppose that the two married shortly after emigrating on the Rebel ship in 1804. In 1805 Franz Wien was elected as a minister. He was the 11th member of the Education committee in Petershagen. By 1809 the young couple owned the following property: 1 wagon, 1 plow, 2 harrows, 4 cattle, and 15 loads of hay.
