

brother Dan Luthers place. Here we tried to farm again. We had some real good milo but a hail storm took about $\frac{1}{2}$ of the crop. But I got a job fixing wells, and ranch work that winter. Then the next year we put out some more crop, but it did not make much. I got a job in a elevator with Don Boose in Felt, Okla. We made out then. We rented some more land around Coldwater, Texas. We bought some farm implements, and put out wheat, and milo and caffecorn. We built a chicken house in which we lived until we left for Reedley Ca. on a model T Ford truck, fixed as a covered wagon. we left on July 15, 1933. First we lived on M. Street. Then we lived in Pete Dridgers farm house east out of town. Later we bought a house on K St. in which we live now. The address is 1015 K St Reedley Calif.
