

But another interesting thing that one might put in,  
Is in 3 generations now living, there are 2 sets of twins.  
Of grandchildren and great grandchildren now married, each numbers 39,  
And Johann in 1953 joined in death, those totaling 29.  
Their children now living are 5, and grandchildren 39,  
Great grandchildren 137, & great-great grandchildren already 52 joining the line.  
So many things have to be left unsaid,  
Of each family represented here and the mates they have wed.  
But let's make our lives useful in each way that we can,  
Working for our maker with the tasks that are at hand,  
For surely then we can say their lives were worthwhile,  
The things they sacrificed and lived for, merit the Master's kind smile.
