

Poem - "25 Years" (cont.)

Then came the trip they'd long waited for,  
Through the states to California's shores.  
To tell of this trip we can't begin,  
For then this story would never end.  
So now we wish for both of you,  
Joy and health, and long life too.  
May happiness often come your way,  
As it has come to you this day.
